## Announcing the New EndoText Website

MDText is excited to share that a brand-new EndoText.org website is on its way! After months of development, we’re nearing the launch of a refreshed platform designed to offer an improved user experience, enhanced search capabilities, and a modern interface.

We anticipate going live this July and can’t wait for you to explore the updates—and as always, EndoText remains completely free.

Thank you for your continued support. We look forward to providing you—and the future—with **The World’s Premier Free Resource in Clinical Endocrinology**.

**CONTACT:** For questions or inquiries, please email [Kenneth.Feingold@ucsf.edu](mailto:Kenneth.Feingold@ucsf.edu)

### Leslie DeGroot, MD - Endotext Founder 1928-2018

EndoText.org is a non-profit web-based source of trustworthy information on endocrine disease written for physicians around the world. It is a comprehensive, authoritative, regularly up-dated, un-biased, and free, on-line textbook directed to physicians, trainees, students, and other health professionals. Our chapters cover the broad area of Clinical Endocrinology, emphasizing clinical endocrine practice, including the most current information on the manifestations of endocrine diseases, diagnoses, and treatments. EndoText.org is the premier provider of peer-reviewed endocrine information on the Web, and we invite your critical comparison to any Endocrinology source available anywhere in the world.

ENDOTEXT is republished by NIH/NLM/NCBI Books, and all chapters are indexed on PUBMED. It is organized by the Editor Kenneth Feingold, MD, 29 Section Editors, and over 400 Authors. All html material may be freely downloaded for personal use and teaching. A PDF version of each chapter can also be downloaded for a small one-time fee (\$5) or for an unlimited times (for any chapter) over a year (\$20). There are more than 112,000 registered users.

EndoText is owned by MDText, a non-profit organization registered in Oregon (USA), and contributions are Federal Tax-exempt as a public charity under IRC Section 509(a)(2). .org is solely responsible for all content.

Our site is made available largely through the generosity of the authors and editors who have provided their work as a service to the profession.

If you like ENDOTEXT, please consider volunteering as a COUNTRY ASSOCIATE to help promote knowledge about ENDOTEXT and THYROID-MANAGER - [Kenneth.Feingold@ucsf.edu](mailto:Kenneth.Feingold@ucsf.edu)
